SEEK

health and avoid sickness. Instead of feeling tired and worn out, instead of aches and pains, wouldn't you rather feel fresh and strong?

You can continue feeling miserable and good for nothing, and no one but yourself can find fault, but if you are tired of that kind of life, you can change it if you choose.

How? By getting one bottle of BROWN'S IRON BITTERS, and taking it regularly according to directions.

Mansfield, Ohio, Nov. 26, 1881.
Gentlemen:—I have suffered with pain in my side and back, and great soreness on my breast, with shooting pains all through my body, attended with great weakness, depression of spirits, and loss of appetite. I have taken several different medicines, and was treated by prominent physicians for my liver, kidneys, and spleen, but I got no relief. I thought I would try Brown's Iron Bitters. I have now taken one bottle and a half and am about well—pain in side and back all gone—soreness all out of my breast, and I have a good appetite, and am gaining in strength and flesh. It can justly be called the king of medicines.
JOHN K. ALLENDER.

BROWN'S IRON BITTERS is composed of Iron in soluble form; Cinchona the great tonic; together with other standard remedies, making a remarkable non-alcoholic tonic, which will cure Dyspepsia, Indigestion, Malaria, Weakness, and relieve all Lung and Kidney diseases.

COAST CLIPPINGS.

Moose are being killed in Montana in large numbers.

Twenty inches of snow is reported in the Yellowstone valley.

The new Treasurer of Amador county was elected by but one majority.

An unknown man threw himself under a train near Nelson, Butte county, and was instantly killed.

Two hundred and thirty men of the 15th Infantry, from New Mexico, are at Denver, en route to St. Paul, Minn.

The San Francisco police arrested 24 street-corner loafers Tuesday night, 18 of whom were yesterday fined \$5 each.

The Excelsior hydraulic mine at Smartsville is yet idle, owing to the injunction suit instituted against it by the county of Yuba.

The vote for Doctor McDonald for Governor of California differed but little from the vote in favor of Chinese immigration when the question was submitted to the people.

A large factory has been started in San Francisco for the manufacture of bogus butter. The stuff is made from all sorts of vile, greasy compounds, and is a filthy and poisonous abomination.

Sonoma county, where the cultivation of the potato has been the leading industry for years, reports only two-thirds of a crop this year, and only two-thirds of the crop grown will be fit to market.

Mistletoe Encampment of Nevada City and Union Encampment of Grass Valley, of the Independent Order of Odd Fellows, have organized a battalion. There are 50 members in the battalion—27 from Nevada and 23 from Grass Valley.

Coal oil has been found near Elhi, six miles from Puyallup, W. T. Specimens of the oil have been analyzed and the finders are satisfied with the result, as it flashes at 110 degrees Fahrenheit, and burns readily in a lamp, giving a clear white light.

More vessels were cleared with flour and grain from California during the year ending June 30, 1882, than for any previous year. The whole number thus cleared was 559. All but 12 of these vessels went to Europe. There were 149 under the American flag, 345 under the British flag, and the remainder under various foreign flags.

Isaac Calder, aged 24, recently from Sebastopol, Napa county, Cal., was killed Wednesday near Troutdale, 18 miles east of Portland, Oregon. He was stringing telegraph wire, and had climbed a pole, which, on account of the recent rains, gave way. He jumped, but went into a deep cut, full 75 feet, striking his head on a rail and crushing his skull.

Travel on the Atlantic & Pacific Railroad from Mojave to the Calico mining district—the portion of the road thus far completed—began on the 13th instant. The track does not run direct to the mining district, but to a station a few miles distant, and passengers are taken in stages the rest of the way. Trains connect at Mojave with through trains from the North and South. The distance from San Francisco to Calico is 462 miles, from Los Angeles 181 miles, and from Mojave 80 miles.

EDITORIAL NOTES.

Why anyone should expect the newspaper publisher to be more generous in squandering his substance than other business men, is something that cannot be accounted for, except on the supposition that some people have an idiotic idea that printers set up type for the love of the work, and that ink and type and printing presses are gifts from heaven to sinful men, who publish newspapers merely for the purpose of smoothing the pathway of their fellow-men on the rugged road to fortune, and who hope not for reward this side of the grave.

The Carson Tribune advocates the election of the Lieutenant-Governor to the Wardenship on the ground "that an able gentleman has been elected as Lieutenant-Governor, but that is no reason why he should not receive the same amount of salary his predecessor has fattened on at the expense of the State."

The reason the Tribune gives requires no argument. It answers itself.

A San Francisco banker has just received a postal card from Richmond, Va., by the terms of which the sender proposes to pay \$11 per thousand for Confederate 6, 7, or 8 per cent. bonds with March, April, June, or October, 1865, coupons on, and half price for those bearing January, 1866, coupons. All of which is very suggestive. There is evidently something in the wind which may breed a storm.

Texas is likely to be the great sheep growing State of the Union. The Galveston News says: Since January 1, 1881, when 8,362,104 head of sheep were assessed, very large numbers have been brought to Texas by rail from the older States, and large herds have been driven here from California and the States of Mexico.

It is well known that a big majority in a legislative body is dangerous to any party, and the Democracy will have to beware of the snares which the large majority they have in the next Congress will necessarily put in their way.—Carson Bee.

An honest confession is good for the soul.

It is estimated that there are 240,000 drummers, or commercial travelers in the United States, and as each can keep about twenty-five girls on a string, there is no danger of the art of osculation being forgotten in this country.

A new floral invention for this season's wedding receptions, says a Boston paper, is a four leaf clover in violets and roses, with the initials of the bride and bridegroom. It must hang before a mirror.

A Brooklyn man received \$13,500 damages from a street car company for the loss of a leg, and now the drivers have to stop every few blocks to pull enterprising citizens off the rails.

If the comet had anything to do with the late Democratic foundation, it is mighty well ashamed of itself, for it is sneaking away as rapidly as possible.

Hon. J. A. Brumsey of Storey is spoken of as President pro tem of the Senate. Mr. Brumsey would make a good presiding officer.

J. J. Linn will present his name to the Legislature and ask for the Wardenship.

WESTERN TELEGRAMS.

Fire—Fireman Injured.
SAN FRANCISCO, Nov. 25.

About 3:30 A. M. a fire broke out in the saw factory of J. R. Sims & Co. on Beale street, between Mission and Howard, in the three-story frame building occupied by the planing mill of Rodgers, Thompson & Co. The fire quickly spread to the adjoining wagon shop of John Francisco, and soon ran through the block to Main street, where it burned a two-story frame house occupied below stairs as a storehouse by Dunham, Carrane & Co. and above by P. Henckle, manufacturer of elevators. The total loss is from \$6,000 to \$10,000. Schutt Gillen, a member of Engine Company No. 2, was seriously injured by the fall of the front of Sims' building.

TO-DAY'S NEWS

Press Dispatches to EVENING GAZETTE.

EASTERN DISPATCHES.

The Storm on Lake Erie.

BUFFALO, Nov. 24.

The terrible storm which broke here last evening continues to-day in all its fury. The city never had to undergo a harder battle with the elements. Several persons were injured this morning by falling signs. The sidewalks are covered with debris. The wind is strong enough to overthrow canvas covered express wagons. Its velocity was sixty miles an hour at 8:20 this morning. Sleet, snow and rain have been falling incessantly since 2 A. M. The harbor presents a gloomy appearance. In addition to the loss of the schooner Doane, the schooner Alamos is almost totally wrecked, having gone upon the breakwater at the foot of York street. The life-saving crew rescued all hands and tugs are working, getting the vessel off before she goes to pieces entirely. The schooner Groton went on the beach at Tift Farm at daylight, and life-boats have gone to her rescue. The "Little Giant" floating elevator capsized during the night and was thrown upon the dock. Water in the creek has risen four feet. The schooner Doane is now breaking up. So far not a life has been lost in this port, but escapes have been miraculous.

DETROIT, Nov. 24.

The captain of the propeller Fountain City, which arrived here at midnight, thinks the loss of shipping by last night's gale will be very heavy. He says there are many crafts of every description out on Lake Huron and that the storm on Saginaw Bay is simply terrible. The schooner C. B. Benson, reported aground on Colchester Reef, Lake Erie, yesterday afternoon, is flying signals of distress, and the crew is lashed to the rigging. The vessel that sighted them was unable to afford assistance.

The Railroad War.

NEW YORK, Nov. 23.

The World prints the following from Milwaukee: To the editor: "I have to say in answer to your inquiries by telegraph that I cannot possibly tell how long the existing and incessable railroad war here may last. It has been begun because we refused to submit to what we deemed very unreasonable demands, and after we had offered to leave all points in dispute to arbitration. It augurs badly for future railroad property in this country if great corporations are to act in this manner. After submitting without retaliation for some weeks to unprovoked hostilities we are now simply trying to defend ourselves."

President C. M. and St. P. R. R.

Funeral of Thurlow Weed.

NEW YORK, Nov. 24.

The funeral of Thurlow Weed took place this morning. Private services were held at his late residence, Rev. Drs. Hall, Paxton and Kinsell officiating. At the conclusion of the services the funeral cortege formed and proceeded to the church, which was filled with a congregation composed of many prominent citizens and well-known persons from the interior of the State. Miss Harriet Weed is too greatly agitated to leave the house. The funeral party will leave for Albany this evening.

A Doctor Who Wanted to be Right.
SPRINGFIELD, Me., Nov. 25.

In the trial for damages against the town for the death of a young lady by a defective highway, one doctor testified that her collar-bone was broken, which two others contradicted. The first, to head off a post-mortem, went to the cemetery to exhume the body and make good his testimony by breaking the collar-bone. He was discovered in the act of digging up the corpse by a person who was at first bribed to silence, but who has since told the whole story.

Railroad Rates—Mrs. Scoville's Case.
CHICAGO, Nov. 25.

Up to 1 o'clock no further changes in railroad rates have occurred, but a number are anticipated for Monday.

Judge Loomis, in the County Court to-day, granted Mrs. Scoville a new trial on the ground that, though possibly insane, she was neither homicidal nor suicidal in her tendencies, nor dangerous to her friends; and hence not a subject for an asylum. The next trial will be on December 18th. Dr. Ross has agreed to guarantee that she will be present. She appeared in court to-day.

Raid on Gamblers and Low Women.
CHICAGO, Nov. 24.

Eighty inmates of gambling houses raided last night and 71 women of ill repute picked up on the streets and in Italian saloons, were fined in the Police Court to-day. It is announced that the new Chief of Police proposes to make war on these classes with a view of driving them out of the city.

Gorham's Aspirations.

NEW YORK, Nov. 24.

The Times editorially says, "George C. Gorham, who appears to have a permanent lien on the Secretary of the Senate, does not see how the President can be forgiven by law-abiding people if he fails to call an extra session of

the Senate. The term of David Davis, President pro tem. of the Senate, expires in March, 1893. Gorham thinks that a special session will be, or should be, immediately thereafter called, in order that another President pro tem. of the Senate shall be chosen. If this is done, then a Secretary of the Senate will also be elected, and Gorham is confident that the happy choice would fall on him, and the safety of the Republic would once more be assured. The question of the tenure of office of the temporary President of the Senate has been often and thoroughly discussed. The matter at last accounts stood somewhat in this position: The Senate may at any time go into an election of officers, a simple resolution to that effect being alone required. On any day during the next session of the Senate a successor to Davis may be chosen, and the Senate would, it is presumed, choose a member whose term carries him over into another Congress, or Davis might resign the chair before his term expires. In the event of such an election, Davis' successor would be President pro tem. of the Senate and presumptive successor to the Presidency until his term of office should be concluded. In that event, however, the country would be distressed by the postponement of George C. Gorham's accession to the Secretaryship of the Senate.

Systematic Thieves.

CHICAGO, Nov. 25.

The Times says: Late last night it was learned that the wholesale boot and shoe house of Phelps, Dodge & Palmer had for ten months past been systematically robbed of some \$40,000, possibly more, by some of their traveling salesmen in collusion with other of their most trusted employees. The plan pursued was for a salesman to send in from new towns in the West fictitious orders from imaginary firms or those which had dissolved partnership. Double orders would then be shipped, the duplicates being taken up by the traveling salesman and the rest returned to the Chicago firm. The greed and boldness of the confederates excited suspicion and investigation followed which, it is said, unearthed the fact that upwards of a dozen men were in the conspiracy. One of them, G. A. Wells, is said to have been arrested and cannot be found. The whole affair has been very quietly conducted and a policy of silence has been adopted by the firm.

Thieves Sentenced.

CARLEYS, ILL., Nov. 25.

Last night the celebrated gang of thieves who have been on trial several days were convicted and sentenced. General Neff, leader of the gang, and Brackman were sentenced to 20 years in the penitentiary. Joe Mantley received 10 years and Steve Mantley five years. This gang operated extensively in North St. Louis and Southern Illinois.

A Distinguished Thief on Trial.
SYRACUSE, N. Y., Nov. 24.

The trial of R. Porter Lee, indicted for embezzling money to the extent of nearly \$200,000, belonging to the First National Bank of Buffalo, while acting as President, has been begun. Governor-elect Cleveland is of counsel for the defense.

Cheap Railroadings.
CHICAGO, Nov. 25.

The rate now made to Cedar Rapids by the Rock Island and St. Paul roads being 50 cents, enables passengers to reach Omaha from Chicago by paying only the additional fare from Cedar Rapids to Omaha—\$8.05; total from Chicago to Omaha \$8.55.

Slayback's Slayer to be Acquitted.
ST. LOUIS, Nov. 24.

It is rumored that the Grand Jury will return an ignored bill in the matter of the killing of Colonel Slayback by John A. Cockrell, editor of the Post-Dispatch.

Death of a Patriot.

SAN ANTONIO, Nov. 24.

Philip D. Bennett, a resident here for 36 years, died this evening. He was the first man to raise the Union flag in Texas after the surrender of Lee.

Frank James to be Arraigned.
ST. PAUL, November 24.

Frank James will be arraigned next Monday, in Kansas City, on three indictments, found previous to his surrender.

FOREIGN TELEGRAPH.

War News from Panama.

PANAMA, Nov. 24.

Different revolutionary bands are causing much annoyance to Veintemalas' scattered forces, some of whom have been defeated at a place called Sabancita, near Babatoyes. Fifty men were killed and wounded, their leader, Barona, being among the wounded.

Irish Troubles.

DUBLIN, Nov. 24.

A man named Nee, implicated in the Joyce murder, has been arrested in Galway. Two farmers were to-day desperately beaten by a gang of men at Clare Morris, County Mayo.

Guarding the Emperor—Epidemic Diseases.
ST. PETERSBURG, Nov. 25.

The recent visit here of the Emperor and Empress was attended with extraordinary precautions. Police were

posted every six yards, troops were massed at the corners of the streets and soldiers drawn up outside the barracks.

There is very great concern here in consequence of the alarming increase of mortality from epidemic diseases, especially diphtheria.

Killed While Eating Breakfast.

LONDON, Nov. 24.

Racing at Bay District Park.

SAN FRANCISCO, Nov. 25.

The four-mile race at Bay District Park to-day is attracting more attention than any sporting event for a long time past. There was a large attendance at the pool rooms last night, the horses selling as follows: Precious \$175, Fred Collier \$140, Clara D \$110, Nathan Coombs \$10. The weather this morning is cold and damp, threatening rain.

Reno Evening Gazette

SATURDAY, NOVEMBER 23, 1889

JOTTINGS.

It is said that wild geese are plentiful on Washoe lake.

This is the dullest Saturday ever experienced in Reno.

Turkeys are plentiful in town. Many will be shucked next week.

The V. & T. is doing a large freight business. Much of it is for the C. & C. road.

Mourning papeteries at Nash's. Thermometer at 7, 9, 11, 1, 3—26, 34, 44, 47, 47.

A long string of teams started for the north to-day, just in good time to get "caught out."

A freight train was ditched at White Plains yesterday, and for that reason last night's express has not arrived.

It is reported that "Spider" is slaughtering deer by the score near the northern terminus of the N. & O. road.

The clouds are holding a mass meeting, endeavoring to agree as to whether they will drop rain or snow upon us.

The mining machinery for Plumas that has been accumulating at the depot during the past two months is pretty well thinned out.

The comet is slowly waning, and is now seen but indistinctly, like a faint and long-extended cloud, in the southeastern sky. It now rises at 11 A. M.

The change from Kimball to Reform Club hall made by Frederick & Hastings was a good one, and their social this evening will be well attended.

The jurors in the District Court are notified that they will not be needed in court on Monday next and they are excused until Wednesday next, Nov. 29th.

A counterfeit silver dollar, heavily plated, is in circulation. It resists the acid test unless the cut be deep. It is one of the most dangerous counterfeits yet uttered.

Just now the women load their dresses down with beads. Next year it may be the fashion to wear from 30 to 80 cow bells. There is nothing too romantic for a woman to wear.

The indications are that there will be quite an emigration of Truckeetes to Washington Territory in the Spring. All those who have located there are doing well.

The bridge on North Virginia street is too high for teams to cross safely, and needs attention. The dirt has settled away from the approaches, making it a dangerous crossing.

The roller-skater does not break through the ice and get drowned. His legs roll out from under him, and he pounds the floor with the back of his head. This does not hurt the floor at all.

The Reno Guard shooting match at the prison grounds to-morrow will attract a good crowd. Perhaps there will be some fun escorting home the winners of the leather medal and the stuffed club.

Don't forget to drop into the Bazaar and see Nash's layout. He will show you everything in his palace of wonders and won't charge a cent. Go and buy something for the children, just to see them grin with pleasure.

Read the White House advertisement and see if there is something you need very much. Call upon Abraham Bros., who are professional clothiers, and let them gorgeously adorn your person for a trifling sum.

Coleman & Pechner still keep making repairs and improvements in their bath-house and hair-dressing saloon. With new carpets, new furniture and new apparatus entirely, they are prepared to please the most fastidious patron.

The Women's Temperance Christian Union set out a tasty lunch in their new reading room last night, and had quite a large company of visitors; but the ladies should be better patronized for the good they are striving to do.

John Miller, in a special car this morning, had two horses belonging to ex-Governor Stanford—Kimball and Ashland—which he is taking to New York. The horses are well known on the fashionable drives of San Francisco as a fast carriage team.

It never will be known how heavy a bass drum is until the stage manager of a show orders one from a local brass band, and three stalwart members pass the doorkeeper without tickets, and struggle manfully in carrying the weighty instrument to the rear.

Remember the Reno Guard target-shoot to-morrow. Free to all; but look out for the bullets. Directly in front of the target will be the safest place when the leather medal man shoots. There will be \$42 in cash distributed among the shooters, besides whisky, beer, ginger ale and cigars, and there will also be a chance to win the regimental medal.

Everett still "goes marching on," and takes the lead of all. No musty old truck for him. Nothing but the best gets on his shelves, and the goods don't stay there long either. Therefore his stock is fresh always, and believing that "a nimble sixpence is better than a slow shilling," he keeps his prices down to bed-rock.

NO WAR.

Johnson Sides Tells What He Knows About the Affairs of His People.

Johnson Sides, a prominent member of the Piute tribe, followed by four stalwart young warriors, paid the GAZETTE office a visit this morning. He said the reported fight between the Washoes and Piutes was without foundation. He said his tribe held a council a short time ago with the view of selecting a chief to ascend to the throne made vacant by the death of old Winnemucca, but the followers of the old man were so much distressed over their loss that the conference adjourned without accomplishing anything. Johnson thinks the Piutes entertain very friendly feelings toward the Washoes, and have no reason to declare war against a friendly tribe. The Washoes, he said, are manifesting a better spirit toward the Piutes than ever before and he apprehended no trouble. He says if a fight occurred at Mud Lake yesterday it must have been between unprincipled, drunken men from the two tribes, and that it would not interrupt the friendly relations now existing between the heads of the tribes. Sides apprehends no difficulty in selecting a successor of Winnemucca and favors Captains Dave, Sam, Nachez or Leo Winnemucca, the old chief's son. He says they are, all honest, sober and industrious and remain on the reservation attending to their business. He feels sure that the selection of either of the above-named braves would meet with the hearty approval of every Piute in the State. The Piutes, he says, are in a very prosperous condition, and have no good reason for complaining of the treatment they receive from any quarter.

The *Enterprise* says: There is no good feeling between the two tribes, but the Washoes know very well that they are to few in numbers to match themselves against the Piutes as a tribe and in a regular war. It is possible that a few men of each tribe have met and got into a fight, just as opposite factions among white men are often known to set upon and maim and kill one another. When the truth becomes known we shall no doubt learn that it is quite a small affair. Of late, for some reason, the Piutes have been unusually bitter against the Washoes, and no doubt would treat any small party that they might catch out from home pretty roughly. Some half-dozen strange Piutes were in town yesterday afternoon, and, seated on the sidewalk at the corner of C and Union streets, were in earnest consultation with a few of the Indians that hang about the Comstock, but they were very reticent. They would say nothing about the election of a new chief—did not want to touch upon political matters at all. The strange Indians may have brought news of some kind of the row down near Wadsworth, cutting across the hills to this city.

Plumas Items.
(Greenville Bulletin, Nov. 22.)

The thermometer has registered 12 degrees below zero in Clover valley this season.

A teacher is wanted for Seneca school district.

On Thursday of last week W. E. Adams had his left leg broken below the knee. He was hauling mine timbers near the Monitor mine and was dragging a stick nearly 60 feet in length when it got away and rolled upon him.

The teamsters that came in yesterday said that but little difficulty was experienced on the Summit from snow. It fell there to a considerable depth; but the road is now packed down solid and the wagons ran as easily as on bare ground. The greatest trouble was in the foothills, where the pitches are so numerous.

George Frolich was severely hurt by falling from a wagon last week. He was driving rapidly down the grade from Round valley, and on reaching one of the bends in the road the box on which he was sitting slipped off and he was thrown violently among the rocks.

On Wednesday night of last week a sharp shock of earthquake was felt here, and was accompanied by a rumbling noise. There was but one shock.

Electrical Phenomena.

During the late electrical disturbance railroad men frequently felt shocks of electricity when grasping a brake or iron car railing. Sometimes the shocks came as if the promoter of them were really in earnest. The track was heavily charged with electricity, and many experiments were made by persons curious to see how far the natural freak extended. If two persons stood upon the track opposite each other and grasped hands they would feel intermittent shocks which were often quite heavy. It is a phenomenon never noticed before, though it may have been frequently around.

Church Notices.

Rev. E. B. Hatch will preach at the Congregational church Sunday morning at 11 o'clock. Evening service at 7 o'clock. Sunday school at 12:30. Seats free and a cordial welcome to all. A. B. Palmer, pastor.

Services in the Baptist Church at 11 o'clock A. M. and 7 P. M. Rev. A. B. Palmer will preach in the morning and the pastor in the evening. Evening subject: "The Divine Promises." A union Thanksgiving service will be held in the Methodist Church Thursday at 11 A. M. and a union temperance meeting in the evening.

THE GREENVILLE BANK SWINDLE.

Prowattain Fleeced His Partner and Everybody Else.

The *Greenville Bulletin* of the 22d, says: Yesterday morning the bank safe was opened, but very little was discovered that will throw light on the affairs of the concern. It has already been discovered that several transactions between the bank and parties here have not been entered on the books at all. One business man had two transactions with the bank lately; one of these was for \$300, the other for \$800; no trace of either has yet been found in the books. Mr. Whitney, one of the partners, says he has no knowledge of them, consequently cannot give any information. Mr. Prowattain may give such information as will explain these and other matters that cannot now be understood. Another warrant was issued yesterday on the complaint of M. F. Levy, who had made a bet on the result of the election. Both parties to the bet put up the amount, \$100, in the hands of Mr. Prowattain. Mr. Levy won the bet, and he now charges that Prowattain appropriated the money to his own uses. Mr. Standart, the assignee, says that he is now satisfied that the liabilities will not vary far from \$6,000; the available assets he thinks will be about \$4,000. All the capital put in by Mr. Whitney has totally disappeared. It now seems that when he entered the concern the values shown him as an offset to his capital were all fictitious, and it is further alleged that it was the intent from the beginning to fleece him. No reliance should be placed on these statements till Mr. Prowattain has been heard. No case excites so much sympathy as that of Angus Grant, a poor man who had saved \$700 by hard labor and close economy. This was placed in the bank on special deposit before Mr. Whitney became a partner in it. Grant is now in poor health, and it is a very serious misfortune for him to lose every dollar he had and be left helpless at the beginning of winter with a wife and child to provide for.

PERSONALS.

Miss Hattie Lewis is down with the diphtheria.

Mart Follett is running his local train again, after being laid up some days.

M. San Pedro, the mining man of Grantsville, Nye county, came to town last night.

Sol Levy, of the dry goods firm of F. Levy & Bro., is quite sick and confined to his bed.

James D. Page, J. E. Adler and D. C. Jacobs of San Francisco are registered at the Depot Hotel.

Tip Clark, engineer of the noon train from Virginia, is still confined with rheumatism at Walley Springs.

G. W. Meyler, the Susanville stage man, came in from the North last night en route to San Francisco.

J. H. Mitchell left on the morning train for Silver City, Idaho, and way ports.

Maurice May of Franktown is going home to Canada soon, to show the new hat he won from M. T. Coats on the election.

Nels Hammond will start out next Tuesday morning to look for the bear hunters, the friends of whom are getting nervous.

E. R. Smith and B. F. Bacon, city trustees of Verdi, and J. E. Soucheau, book keeper for the Verdi Mill Co., were taking in the town yesterday.

Captain Matt Canavan was in town this morning, having been detained here by the delayed train. Captain Canavan looks as if he had had a hard rough-and-tumble with the grim monster and won the fight by a scratch.

Frank Stewart has been laid up with a broken leg nearly all the time for eight months. No sooner does he recover from a fracture than he suffers another break. He has become so used to it that he feels uncomfortable unless his leg is fixed with splints.

David O'Neil, Sheriff of Nye county, is at the Arcade. He brought in a Greek named Barbo Del Marro, convicted in Belmont of stealing \$350 from a saloon man, to the State Prison. Del Marro is a well known thief, but he has hitherto been too cunning to get caught.

The Milton Nobles Troupe.

Milton Nobles will present "The Phoenix" at the Nevada Theater Tuesday night. The play possesses many features which are entirely new to the stage. It is brim full of sharp sayings blended with wit and humor, and is very highly spoken of by the press wherever it has been presented. Mr. Nobles is the author of the play, and is therefore competent to place it properly before an audience.

A Compliment from the "Tribune." There are more burns to the square yard in the town of Reno than in any city in the wide world. In fact it is a burning and striking railroad by-way stopping-off place, and nothing else.—*Carson Tribune*.

The town does have that appearance when Carson editors are here.

Another Candidate.

R. R. Parkinson of the *Carson Tribune* is said to be a candidate for the position of Journal Clerk of the Senate.

WASTE OF TIMBER.

The Government Taking Steps to Prevent It.

The extravagant waste of timber is to be stopped hereafter. A recent order from the Department of the Interior to Government timber agents says:

"Should you at any time receive information of any forest fire being in progress in your district, you will at once proceed to the locality of the same and use all possible means to check its progress and to extinguish it. Should it be necessary to employ assistance in such a case, and the emergency be such that it would be impossible to inform this office of that fact and to receive special instructions, you are hereby authorized to expend a reasonable sum for such purpose; but you will at once inform this office, by telegraph, of the number of persons so employed and the total probable expense."

"One of the most dangerous elements to contend with in case of forest fires, and one of the principal auxiliaries in the spread of the same, is the dry tops of trees which parties leave upon the ground after having cut and removed the timber for saw logs and other purposes. When the tree tops can be profitably cut into wood, the person cutting such trees on public land—when such cutting is authorized by law—must cut the tops into wood, or at least cut up and pile the brush in such a manner as to prevent the spread of fires."

"A failure on the part of woodsmen to utilize all the tree that can profitably be used, and to take reasonable precaution to prevent the spread of fires, will be regarded by this office as a wanton waste, and subject them to prosecution for wanton waste and destruction of public timber."

Entertainment at the Baptist Church.

The ladies of the Baptist Church will present many attractions next Monday and Tuesday evenings. There will be charades, singing and recitations, and various other features to make the entertainment pleasant to those who attend; and to cap the climax of allurements there will be an elegant supper, with all the luxuries that our well supplied market affords. The admission fee is only 25 cents. It will be worth ten times that sum to see the bery of beauty that will assemble there, amid which Mrs. Langtry would pass unnoticed.

Unlike other cathartics, Dr. Pierce's "pellets" do not render the bowels costive after operation, but, on the contrary, establish a permanently healthy action. Being entirely vegetable, no particular care is required while using them. By druggists.

OREGON CITY WOOLEN MILLS BLANKETS

A Valuable Invention.

A Reno man has invented a breech-loading pipe which can be discharged and reloaded without being relighted, and saves a vast amount of time and matches and vexation of spirit. The inventor calculates that the average smoker fills his pipe 12 times a day, averaging 6 minutes each time—causing a loss of 72 minutes per day or 8 hours and 24 minutes per week or eighteen days, four hours and forty-eight minutes per year. At this rate a person who smokes for fifty years will waste nearly three of them in loading and unloading his pipe. The inventor estimates the number of pipe smokers in this country at 1,000,000 and that each pipe lighted requires an average expenditure of fourteen matches—which is equal to the destruction of 56,940,000,000 matches per annum.

Roumanian Prince.

A dispatch from Pittsburgh states that one of the bartenders in a saloon of that city has been discovered to be a German prince. It is pleasing to see an effort on the part of German princes to earn their own living. Dusy, at Chase & Thyes, is a Roumanian nobleman of high grade, who graduated at a university where the art of mixing drinks was taught by profound professors. Go and see if he can't fix his beverages to fit the worst-shaped mouth. There are also plenty of cider and temperance drinks to be had.

An Impudent Waiter.

Our restaurants have had such a run of custom that some of the waiters are a little inattentive. A stranger called for a plate of oysters, and, after smelling them he said: "Waiter, are these oysters fresh?" "We are not running an intelligence-office," "I would like to know if they are fresh." "Well, then, eat them; then you will know for yourself. You don't expect me to eat them for you, do you? Do I look as though I was here to try old oysters on?"

Judge King to-day excused all the jurors until November 29th. The Court, however, will meet again Monday.
